

*Scottish Riley Enthusiasts*

# *Newsletter*

## **In our February SRE Newsletter**

### **Racing Rarity**

With a Riley pedigree as long as your arm, the HAR Racing Special makes a fascinating sight and its history is no less intriguing. Join our Strathclyde group as they inspect this unique and so-competitive car, constructed by a true Scottish Riley enthusiast in the Fifties and raced ever since. We'll even quietly ignore its Daimler V8 engine!

### **“Making It Happen”**

We congratulate our pals in the Caledonian Classic and Historic Motorsport Club on its first ten years. Looks as though they've been having fun, in all directions - some of them intended!

### **February's SRE Committee Meeting**

All the important topics of the SRE Committee discussion, including our club calendar for the 2010 season. We notice that our website, on which you are now reading this, had 40,000 “hits” during January alone. We must be doing something right .....

### **Branch reports from SRE Groups throughout Scotland.**

With some of our local meetings affected by the snow, what's there to say? Well, it shouldn't surprise anyone that SRE members all over the country have been very busy, preparing Rileys for the coming driving season and planning their participation in the FBHVC Drive It Day.

*The Scottish National Riley Weekend 2010 takes place from 4th to 6th June and rooms at our HQ Hotel have been snapped up. Book now, if you have any hope of a place in our spillover hotel.*
